Why important this for you?

Autism Spectrum Disorder is the most popular and prevailing disorder among some of the children and adolescents with special needs in nationally and internationally.

For whom this workshop will be useful

This workshop will be useful for professionals, teachers, and parents in the field of special needs education, and community members.

What we intend to do by this workshop

To enhance and expand the community services of the Support Centre for Children and Adolescents in Risk Situations (SCCARS) established in the Faculty of Education, Open University of Sri Lanka.

1 **Group size per workshop**

Fifty (50) participants per batch from each medium in each Regional Centre of the Open University of Sri Lanka

2 **Where we held**

Workshops will be held based on nine Regional Centres of the University

(Colombo, Anuradhapura, Badulla, Batticaloa, Jaffna, Kandy, Kurunegala, Matara, and Rathnapura)

3 **How do we conduct this workshop**

The workshop will be conducted Online (via Zoom).
